PROJECTS

Predicting Iris Flower Species Hyderabad (2023-2024)

Implemented a machine learning model to classify Iris flower species based on sepal and petal measurements. Used Python libraries such as Pandas, NumPy, and Scikit-learn for data preprocessing, model training, and evaluation.

Student Information System Rajahmundry(Working-2024)

Developed a student information system using Python and SQLite.

Designed a command-line interface for managing student records, including registration, grades, and attendance.

Customer Churn Prediction System Rajahmundry(Working-2024)

Analyzed customer churn data using SQL to identify patterns and trends.

EDUCATION

Sagi RamaKrishna Raju University

Bachelor of Technology
2019-2024

Bharatiya Vidy Bhavans

Class XII
2015-2017
